

SMART REPAIRS

So what is a SMART REPAIR?

A smart repair is covered by the Mnemonic S.M.A.R.T which stands for:

Small
Medium
Area
Repair
Technique

A SMART repair is a Small to Medium Area Repair Technique, and is a technology offering an alternative to bodyshops for the repair of cosmetic damage suffered during everyday driving life i.e alloy wheel scrapes, bumper scuffs, scratches etc.

Why choose smart repairs?

All services carried out by SMART Repairs are on a mobile basis using the very latest technology and equipment from the SMART repair industry. With fewer overheads we can ensure that you receive a professional, yet cost effective and convenient service.

SMART Repairs covers the entire North West of England and prides itself on delivering a reliable service to all of it's customers.

10% Discount to all HASSRA members on production of their membership card.
